SUMMARY

A committed Computer Science student at Universitas Multimedia Nusantara, driven by a passion for continuous learning and sharing knowledge with others. Backed by a demonstrated history of success in the online media sector, I possess expertise in diverse areas, including Software and Web Development, DevOps, Server Administration, Graphic Design, Film Scoring, and Audio Engineering.

EXPERIENCE

Food Sustainesia

Jakarta

Part-time Full-stack Engineer

Feb 2022 - Dec 2023

- Orchestrated the development, design, and deployment of the corporate website, *Foodsustainesia.com*, and the associated brand website, *Eathink.id*, utilizing WordPress and Next.js as the primary platforms
- Contributed to the creation of visual assets for Eathink's social media content and the promotional materials for events hosted by Food Sustainesia, providing valuable design support

HMIF UMN

Tangerang

Head of Creative & Design Division

Nov 2022 - present

- Successfully initiated the reconstruction of HMIF UMN's brand system, encompassing the creation of a new logo, revamping of social media channels, and redevelopment of the official website
- Demonstrated effective leadership by overseeing a team of seven professionals responsible for design-related tasks and comprehensive documentation of HMIF's events during the year 2023

Universitas Multimedia Nusantara

Tangerang

FTI Laboratory Assistant (*Even Semester 2022/2023*)

Feb 2023 - Jun 2023

- Taught second-semester students in the subjects of *Algorithms and Data Structures (IF232)* and *Operating Systems (IF260)* with a focus on imparting comprehensive knowledge and enhancing their understanding of these courses.
- Assumed a leadership role in the development of the Midterm and Final Examinations for both courses, working collaboratively with fellow laboratory assistants to ensure the creation of well-structured and effective assessment tools

EDUCATION

Universitas Multimedia Nusantara

Aug 2021 - present

Bachelor of Engineering in Computer Science (GPA: 3.83/4.0)

SMK Negeri 1 Berau

Aug 2018 - May 2021

Multimedia Department

PROJECTS

PKM UMN: GPdI Hebron Gading Serpong

[Link to Website](#)

An ongoing website project is being undertaken by LPPM UMN for the local church in Gading Serpong. Within this project, my team and I are actively engaged in the redesign and reconstruction of the existing website, leveraging contemporary frameworks and tools. In my capacity, I am responsible for the execution of all UI/UX tasks, overseeing website deployment through Vercel, and configuring a streamlined CI/CD process to enhance the efficiency of our development workflow.

PKM UMN: Curuglemo Village

Not Yet Done

Currently leading a community outreach project for the village of Curuglemo under UMN, where I am serving as the IT Project Manager and DevOps Engineer. In this multifaceted role, I am responsible for orchestrating the technical aspects of the project, ensuring the seamless integration of information technology solutions, and optimizing the project's operational efficiency for the benefit of the local community.

SKILLS

Programming Typescript, Javascript, PHP, Java, C/C++, Python

Framework React, Laravel, NextJS, ExpressJS, SvelteKit, TailwindCSS
